DC WIC Goal: The Youth Council (DCYIC) is federally and locally charged with the responsibility to oversee youth funds and activities authorized by the Workforce Investment Act, and to build a youth development system that aligns the District's youth-related funding streams in ways that reflect a citywide consensus on effective youth goals, strategies and programming. This Committee will focus on the following components:

- Review, development, and recommendation of the DC Youth Strategy
- Review and discussion of in-school youth funds and activities
- Review and discussion of out of-school youth funds and activities, including Summer Youth Programs
- Improving coordination of city-wide youth related activities
- Develop innovative strategies for employer engagement
- Review and coordination with DCPS Career Academies

All Youth Council efforts are staffed by the DCWIC
